

USDA Branded Food Products Database

The USDA Branded Food Products Database (BFPD), a free online resource for families, the food industry and researchers contains nutrition details on name brand prepared and packaged foods available at restaurants and grocery stores. The database is the result of a Public-Private Partnership, whose goal is to enhance public health and the open sharing of nutrient composition of branded and private label foods provided by the food industry. Members of the Public-Private Partnership are:

Agricultural Research Service (ARS), USDA (www.ars.usda.gov), International Life Sciences Institute (ILSI) North America (www.ilsina.org), GS1 US (www.gs1us.org/), 1WorldSync (www.1worldsync.com), Label Insight (www.labelinsight.com), University of Maryland, Joint Institute for Food Safety and Applied Nutrition (jifsan.umd.edu).
